

# JEREMIAH CHRISTIAN ROSALES

## SOFTWARE DEVELOPER | ALL-AROUND VIRTUAL ASSISTANT

Valenzuela City | miahcadia@gmail.com | (+63)-9683104971 | Graduating BSIT student

Versatile Software Developer with hands-on experience in backend web development, using Java, C#, JavaScript, HTML, CSS, PHP, Python, Node.js, React, PostgreSQL, MySQL, mongoDB. I'm also experienced in using GoHighLevel, Zoho, n8n, QuickBooks for a variety of tasks which I also love to automate using my own programs.

### PROJECTS

#### LILO AI Shift Analyzer and Payroll Generation

September 2025

- Python, Visual Basic, Node.js
- Developed an AI shift analyzer for companies to use for determining hours, bonuses, and deductions. Feeds the data using a Node.js app into Excel for payroll generation.

#### WGY Travel Agency Website

Jan 2024 - Mar 2024

- HTML, CSS, WordPress
- Developed an advertising website for a travel agency that uses APIs for contact management and to display the agency's travel packages and offerings while engaging clients with a well-designed interface.

#### Duskfall Asylum Video Game

Oct 2024 - Dec 2024

- C#, Unity
- Developed a 2D running platformer video game for PC and Android using Unity with a horror genre and features a pixelated theme, well-fitting music, and jumpscare.

#### ValSafe, Valenzuela City Incident Reporting Application

Jan 2025 - Present

- Documentation Lead
- Led the documentation of the project using UMLs for dataflow diagrams, use case diagrams, and activity diagrams.

#### Filmetrics Lilo Invoice Automation

July 2025

- Back-end Developer
- Developed the backend of an invoice automation system using Node.js and MySQL for billing companies using the LILO service. Connected the project to the company's billing list via API.

#### Philippine Post Office ID Application Dashboard

August - September 2025

- Back-end Developer
- Created the backend for the dashboard using Node.js and PostgreSQL of the application monitoring of postal ID applications. Dashboard is able to see data visualizations depending on the account used. Superadmin able to add accounts and assign branches to accounts.

### WORK EXPERIENCE

#### Filmetrics Corporation Development Intern

July 2025 - October 2025

- Backend Development Intern
- Created a variety of programs and projects for the company and its clients using Node.js, PostgreSQL, and other backend technologies.

#### Lion Sales Funnel LLC Automation Specialist

August 2025 - Present

- Working as a project-based part-time n8n and GHL developer for an IT consultancy. Personally automated the workflows for a cancer support company's books and resources.

#### WGY Travel Virtual Assistant

July 2024 - August 2025

- Worked as an administration and web virtual assistant for a travel agency. Designed websites for the client and assisted in a multitude of tasks such as bookkeeping, lead generation, and automation setup.
